LEDZED Downlights

LED downlights

Applications: Recessed LED downlights can replace several traditional lightings in different places. For example recessed cabinet lights in kitchen. Recessed downlights in ceiling, walls or on the floors in the corridors, offices, department stores and other buildings. Or outside use as an in-ground lights. Can be used also in yachts, caravans etc. Only your imagination is the limit. Different colours are available and for the white both cool and warm white. Different options also for the beam angle.

Others: Also other special lamps in selection like festoon lamps and fixtures for the lamps. Ask quotation of our other products!
